

## If your child can read at least 50 words:

Have your child begin by first watching Volume 1 once a day, 3 to 4 times per week for about one month. Progress through each volume and repeat a similar viewing schedule for the remaining volumes of the program. Go to [www.InfantLearning.com](http://www.InfantLearning.com) and use the tips to help your child read phrases and sentences and to help her read phonetically.

## If your child is unable to read at least 50 words:

Please go to [www.TheScienceOfEarlyLearning.com](http://www.TheScienceOfEarlyLearning.com) and read the [Guidelines for Teaching Written Language](#) for tips on helping your child learn his first 50 words. Please consider having your child use Your Baby Can Learn! prior to using this series if your child is age 5 or under.

Please use the five YBCL videos along with the Teaching Cards, Sliding Word and Picture Cards, Milestone Cards, Lift-the-Flap Books, Shape Bias Language Cards, and Lift-the-Flap Language Cards. Watch one or two Your Baby Can Learn videos a day and view Volume 5 a little more than the others. As soon as your child can consistently recognize at least 50 written words, please advance to the Your Child Can Read! program.

## Your Child Can Read! Schedule

Watch Your Child Can Read! (YCCR) Volume 1 and also review the 5 YBCL videos until your child can read at least 100 words. Use all of the products in this kit, as well as the Sliding Phonics Cards or our other products available at [www.YourBabyCanLearn.com](http://www.YourBabyCanLearn.com). For children who can already read at least 100 words, watch YCCR Volume 1 for about one month or until your child can read most of the words in Volume 1 – whichever comes first.

Next, watch Volume 2 for about one month. Occasionally review Volume 1 of YCCR and the YBCL videos (especially Volumes 4 and 5 of YBCL). Go at a faster or slower pace based on whether or not your child is consistently reading the words.

Focus on Volume 3 for about one month. Continue to review the other YCCR DVDs at least twice a week and occasionally review the YBCL videos.

Do the same with Volumes 4 and 5 – focus on them for about one month while reviewing the other YCCR DVDs and reviewing the YBCL series.

## Additional Tips

**1** Do activities with your child that are similar to what you see in the DVDs. [Do the tips designed to teach phonics using the strategies on our website under Your Child Can Read! Product Instructions and Tips.](#) Please read our tips on how to use books to teach reading as well as the “fast reading” tips. Also, [read the Early Literacy Milestone titled “Reading a Book from Cover to Cover” at TheScienceOfEarlyLearning.com](#) for more strategies.

You can check our science website [TheScienceofEarlyLearning.com](http://TheScienceofEarlyLearning.com), our customer website [InfantLearning.com](http://InfantLearning.com), and our shopping website [YourBabyCanLearn.com](http://YourBabyCanLearn.com) for additional information.

**2** Periodically check your child’s reading ability by showing him words from the videos. If your child is able to read the majority of the words, you should progress to the next DVD. It is important for your child to review the previously viewed videos to help reinforce the material until it is mastered.

**3** Please reduce the amount of entertainment-based television your child views at least until your child is reading independently. If you go to the library frequently and check out numerous books, this will be easier. [Read the long-term studies on early reading so you understand the long-term benefits.](#)

# Your Child Can Read! Viewing Schedule

Regardless of your child's reading level, begin with **Volume 1**. It establishes the program's foundation for developing reading skills. Watch **Volume 1** about twice a day for one month. Modify this based on the instructions at the top of the first page of this PDF about the number of words your child can read.

**Volume 2** builds upon word families, while including fast-reading segments to help build your child's reading speed. Review **Volume 1** about once or twice a week until the material is mastered.

**Volume 3** continues to teach phonics and introduces prefixes and suffixes in a way that is fun and exciting for your child. Review **Volume 1** about once a week and **Volume 2** about twice a week.

**Volume 4** has sections to help phonics, vocabulary, reading speed, comprehension, and learning prefixes and suffixes. Review **Volume 1** and **Volume 2** about once a week and **Volume 3** about twice a week.

**Volume 5** introduces hundreds of new words. At this point your child will have seen all 200 of the most commonly used words in children's literature. Review each of the other volumes (**Volume 1**, **Volume 2**, **Volume 3**, and **Volume 4**) about once a week.

Some Your Child Can Read! packages contain these Sliding Phonics Cards with two sliding tabs to help your child learn phonics in a fun, interactive manner. You can form more than 70 words and match them up with the images by pulling the tabs. Please play with these word cards with your child.
